## Develop plastic free campus

Creating a plastic-free campus requires a comprehensive approach that involves reducing the use of single-use plastics, promoting sustainable alternatives, and fostering a culture of environmental stewardship among students, faculty, staff, and visitors. develop a plastic-free campus: Conduct a thorough assessment of current plastic usage on campus, including single-use plastics in dining facilities, vending machines, campus events, and administrative offices. Develop a strategic plan outlining specific goals, targets, and timelines for reducing plastic usage and transitioning to more sustainable alternatives.

## PLASTIC FREE CAMPUS

Plastic free campuses, a project in Euphrasia Training College, aims to measurably reduce plastic waste and pollution in college campuses and the world around them. To eliminate plastic pollution and its toxic impacts on people and the environment. Offering discounts across campus for students, faculty, staff and visitors who use a reusable mug and installing water-bottle refill stations throughout campus to encourage the use of reusable bottles.
