## Environment and Sustainability Policy

The college envisages a holistic development of the society and the world at large through initiatives that are environment friendly. The College is committed to ensuring that its impact on the environment both locally and globally is minimized. This is achieved via sensible use of resources, energy, and in its purchasing and waste management policies. The College makes every effort to conserve and enhance natural resources to create a sustainable environment both in its current and future estates. The College acknowledges that climate change is now a major and urgent sustainability issue and seeks to responsibly use resources and to strive to continually improve its environmental performance. The quality policy of environment and sustainability of the colleges ensures that the institution shall:

- Improve awareness and understanding of environmental issues and sustainable development by providing information and training opportunities on energy saving measures
- Encourage all staff and students to be active participants in environmental initiatives
- Improve energy performance and reduce the carbon footprint of the college by replacing filament bulbs with LED bulbs
- Integrate environmental and sustainable principles into the College's operational procedures and promote best practice at every level
- Install and maintain Solar plants, and other energy efficient equipment's to minimize the energy consumption in the college

Principal  
Euphrasia Training College For Women  
Kattoor

- Monitor and reduce water usage to the possible extreme
- Construct and maintain tanks and bunds, as needed, for ecological enrichment of the college campus
- Reduce entry of vehicles in the college campus to reduce carbon footprint
- Harvest rainwater effectively for storage and recharging of land and water bodies on the campus

Promote tree plantation drives inside and outside

the college premises

- Ensure measures for minimizing and managing the proper disposal of all forms of wastes - solid, liquid, biomedical and E-wastes
- Encourage paperless drive through substitution of electronic and other means in academic and administrative activities
- Encourage different cells and clubs to work with the local community, public and private sector organizations to improve the local environment and promote sustainable development
- Avoid the use of disposables and flex banners adhering to the Green Protocol promoted by the Government of Kerala
- Engage in dialogue with the government agencies, actively work with the local organizations in the areas of environment, energy efficiency and sustainable development
- Monitor and respond to emerging environmental and energy issues
