Euphrasia Training College for Women

## Remedial Learning Engagement

This Institution provides Remedial tutoring to the academically weak students. It helps students who are academically weak to reach the same level of achievement as their peers. The goal is to help students achieve their expected level of competency in core academic skills. Remedial education can be designed for students with or without special needs.

## Collaborative Task

Collaborative learning is a classroom-based approach that involves students working together in small groups on activities or learning tasks. Our college provides ample opportunities for collaborative tasks. These tasks can be tightly structured or more spontaneous, based on students' questions and ideas. Students may work on separate tasks that contribute to a common outcome or work together on a shared task.
