Report

Euphrasia Training College for women organizes several programmes to meet the needs and interests of the students like Orientation classes, counseling, workshops, group dynamics classes, awareness programmes, group discussions, etc. First of all we provide general counseling classes to the students and we allotted periods for this and the classes were taken by optional teachers and from these classes we can find out the students who are suffering from personal problems. , then we try to find out the exact causes of their problem and give counseling. Here the counseling was given by the subject experts. We also provide feedback/ tutoring sessions like micro teaching, discussion lesson plans, criticism classes. Through this peer feedback/ tutoring each student can assess their level of performance thereby make changes accordingly. We also provide remedial teaching to students who were academically weak. In order to develop the learning enhancement capacities of the students this institution provides chart and model workshop supw workshop and art and drama workshop. Several group discussions and debates were also conducted in our college as a part of a collaborative task for promoting multilingual interactions among students. As a part of multi multilingual interaction Our institution conducts international mother language day.
