SOCIALLY USEFUL PRODUCTIVE WORK

(SUPW):

Socially Useful Productive Work (SUPW) is a purposive productive work and services related to the needs of the child community, which will be proved meaningful to the learner. Such work must not be performed mechanically but must be included in planning, analysis and detailed preparation, at every stage so that it is educational in essence. Adoption of improved tools and materials where available and the adoption of modern techniques will lead to an appreciation of the needs of a progressive society based on technology. Students learn to work as a team and to work with skills and dexterity. It was introduced in 1978, by the Ministry of Education to promote Gandhian values and educational

Ideas of Mahatma Gandhi

In addition to developing skills, SUPW aims to help develop among the students the habit to work as a community, encourages community thinking, increase awareness of scientific advancement and develop a scientific outlook. The training acquired in the classroom is expected to help the students to solve the day to day problems in the community.

Recommending education through craft. Mahatma Gandhi said, "The core of my suggestion is that handicrafts are taught not merely for productive work but for the developing intellect of the pupils. This idea was taken forward by Kothari Commission (1964-66) which suggested inclusion of work experience. Subsequently after the recommendation of 'Ishwarthai Patel Committee' (July, 1977,) which coined the term Socially ^{Useful} Production Work (SUPW), the subject was introduced in school curriculum.

BOOK BINDING

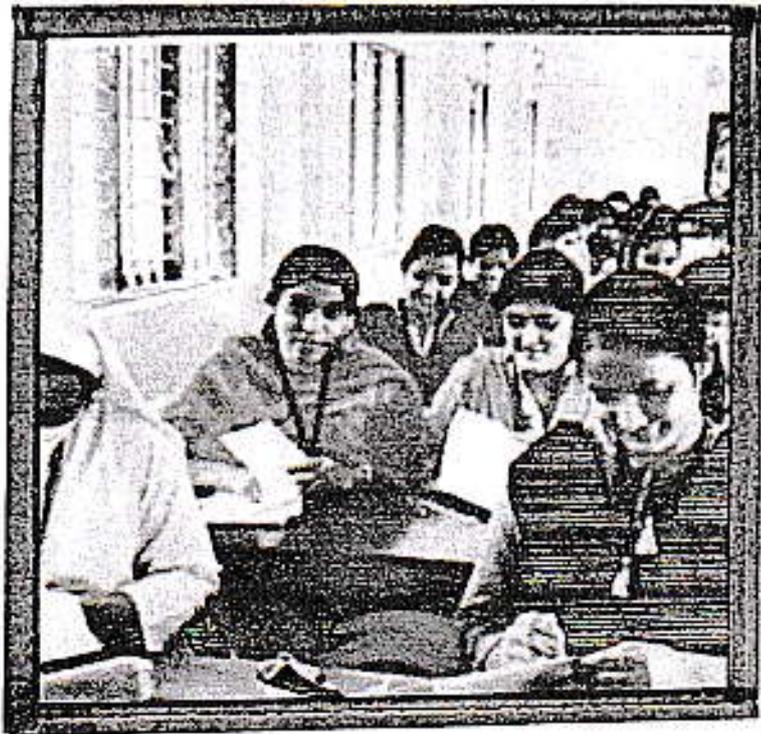

Book binding is the process of physically assembling a book of cordex format from an ordered stack of paper sheets into a section. As part of the SUPW in the B.ed curriculum, we decided to do book binding. And also the binded books are thought to give to the students of the school. Binding makes the book look good. Binding improves the self life of the book. It is very easy to carry the books which are binded.

OBJECTIVES:

- * Production of useful product to the community.
- * Being a role model for the coming generations.
- * Developing socially commitment.
- * Providing the books to the students who cannot afford the books.

- * Developing creative skills.
- * Being a worthy citizen.
- * Develop aesthetic qualities by creating a new book.
- * Enjoying the creativity.

MATERIALS REQUIRED:

Papers, glue, scissors, thread, scale, needle, pencil, cardboard.

METHODOLOGY:

Collect 40 papers, and divide the set of papers into 10 sets. Then take each set and fold each stack in half as neatly as possible without ironing over. Then take a pencil and mark three points which are in equal distance. Then take a needle and thread. Then tie the first of set of papers (10 papers) - Then continue the process for the other three sets of papers. After tying the

PAPER BAGS

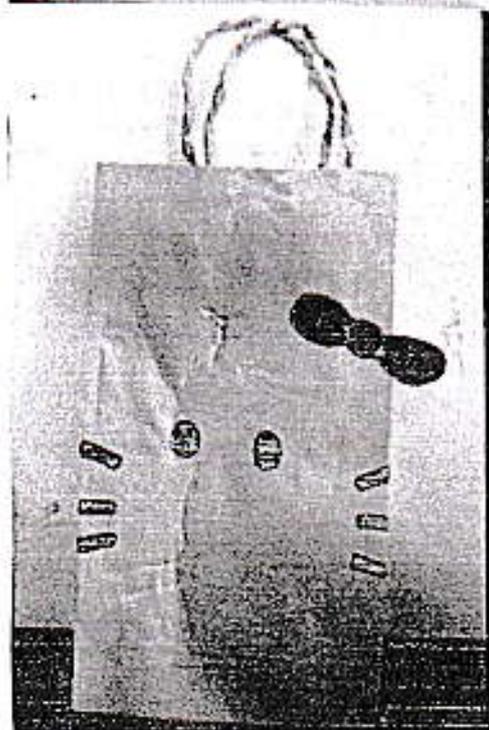

Paper bag is a bag made of paper, usually kraft paper. Paper bags can be made either with virgin or recycled fibres to meet customer demands. Paper bags are commonly used as shopping carrier bags and for packaging of some consumer goods. They carry a wide range of products from groceries, glass bottles, clothing etc. and can also function as means of transport in day to day activities. Paper bags are ecofriendly, and are not harmful to the environment.

OBJECTIVES:

- * Developing the creative skills.
- * Production of a biodegradable product.
- * Ecofriendly products.

- * Production of useful product to the community.
- * Being a worthy citizen.

MATERIALS REQUIRED:

Chart, scissor, colour paper, glue, scale, pencil, tap.

METHODOLOGY:

Collect the things that is required for the preparation of a paper bag. Make a horizontal fold. And stick the edges together. let it dry. Then fold the side creases inward to create a slight accordion effect. Then prepare the bottom of the bag. To determine which end is the bottom, look for the crease lines that mark the bottom of the bag. Keep the bag flattened for now. Fold the bag about

CONCLUSION

Socially Useful Productive Work (SUPW) is productive and service. It is developed in the light of the Gandhian philosophy of basic education which is work centered. Socially Productive work aims at developing harmonious development of the whole man. It bridges the gap between life and education, education and work. It makes the learning process effective and useful for everyone. It correlates knowledge with craft and theory with practice. It helps to increase national productivity and to self employment. It enriches the personality of the child and helps him to develop his creative faculties and diverse abilities.

WORKING WITH COMMUNITY

As a part of working with community in the B.ed curriculum, it was asked to clean public places or beautification of campus. And we have chosen the beautification of campus and the surroundings. It is important duty of every citizen to keep the surroundings and the campus clean and tidy. Through this we could develop a dignity of labour. And also will be able to seek co-operation and support from the local people.

It helps you to increase your social and relationship skills. It gives an opportunity to practice and develop our social skills, since you are meeting with a group of people.

EXECUTION:

As a part of cleaning public places or campus beautification in the B.ed curriculum, we have decided to clean the college campus, ground, road and the surroundings of the college. It was done on 22-12-21. The students were divided into 4 groups. Work and plan were assigned to each group. Due to the covid pandemic situation, we have done the cleaning and beautification in the college itself. I was in the group in which the ground was cleaned. The cleaning was started in the morning after the prayer. In between the clean refreshment were provided. Biscuits and tea were provided to every student.

CONCLUSION :

It is our duty to keep the surrounding and our campus tidy. Cleanliness is a part of our life. Campus beautification helped me to understand how to be more respectful of the environment and to clean up after themselves. As the community sees how well treated their nearby campus in a sense of pride will begin to consume the community. It will help us to be more close to the nature.

Through the campus beautification, I could accomplish the mission successfully. And also able to gain a lot of experiences.

In the aftermoon section there was a class led by Mr. Raphael M.L, preventive officer excise range office Innojalakuda. Mrs. Arsha welcomed all to the session. He enriched our mind with his powerful talk about alcohol and drugs. He lead the class very interestingly. He pointed out that alcohol and drugs are not only the addictions, there are other addictions like family, love, celebrations, Mobile phones, Fashion etc. He awared us with the bad effects caused by alcohols and drugs to society and families. As a teacher student we should be aware of different forms of drugs, the characteristics of those using drugs and methods to save them. He mentioned several experiences, cases that small children those who get trapped in alcoholism and drug addiction.

Waste product material making competition.

After the class as planned earlier there was waste product material competition by making whole students into groups of three. We had given the place in upper floor with the materials collected from home each groups made products of different kinds. One hour was given for

making the products. In our group we made a cloth mat. It was very interesting to watch the products being displayed at the end. Products using coconut leaf, coconut shells, coco peat, straw, bottles, tins, glasses, papers are made by the students.

Newspaper reading

In that whole day the most interesting and enjoyed program was newspaper reading. Each group presented the news report of the day in an humorous way. Students made it as a chance to tell every one and each event. It helped to know many events that happened in that day which was unknown to many. Two of the students from each group presented the report. The name they given to their channel was even laugh provoking.

The first day ended by 4:30 pm. The session concluded with national anthem.

The time gaps between today program was filled by various entertainment programs coordinated by the entertainment committee and tea and snacks was distributed by refreshment committee members.

Suggestions

From the evaluations and discussions suggestions for improving the camp was put forward. The important suggestions include

- * It should be more good if the points of instructions or view points of students were considered.
- * The time lag between programs should have been given more consideration
- * Discussions on the relevant incidents should have been included
- * Games should be included in each day within groups
- to improve team spirit
- * A cultural program session should have been included
- * The time schedule should be properly set

spot in Vagamon. We walked through the pine forest and spend there about 1 hour. There we enjoyed and experienced something different. Also from pine forest we took group photos. After that we got time for purchasing. We purchased chocolates, tea etc. After that we moved on to St. Alphonsa's tomb.

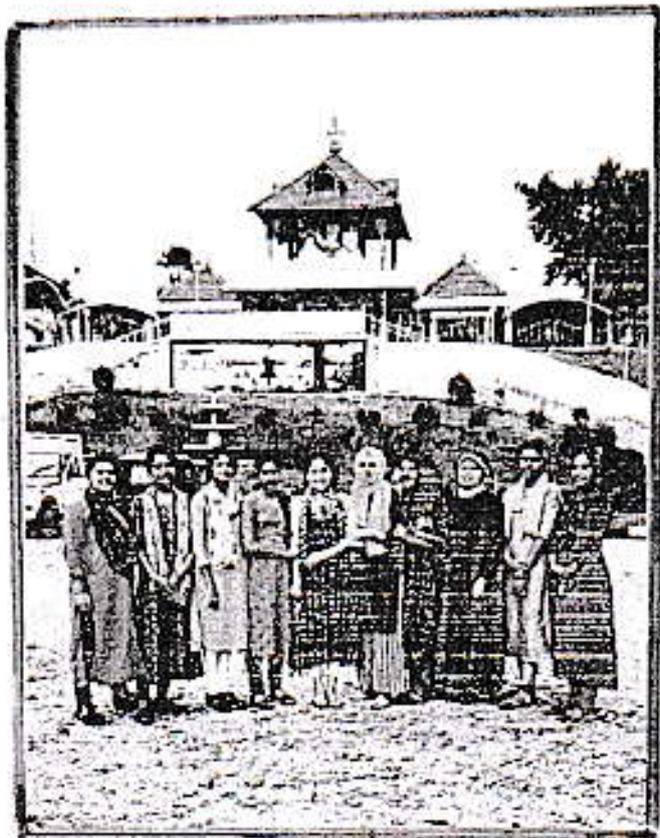

TOMB OF ST. ALPHONSA:

Since it was an one day trip, we could only visit two places. On the way to home, we visited the Tomb of St. Alphonsa who was the first saint from India. From there everyone went for the prayer. After that, everyone went for refreshing and had tea from there. Thus we returned back to our home at 6:00 pm.

The field trip gave us a lot of

memories. We enjoyed the trip a lot. It was
really a good break from our work. It helped
our mind to be relaxed. We all spend a
day with love and cooperation. All the stud-
ents and teachers coordinated and cooperated
with love. We reached the college at 10:15 pm.
We enjoyed the trip a lot and got many
memorable moments from the trip. She doesn't

ANALYSIS:

The field trip was enjoyable and was able to get a lot of memorable moments from it.

Everyone cooperated in a good manner. Also the students participated actively in the field trip.

The field trip helped us to gain new knowledge and also to visit the historical places. Also we were able to learn and get acquainted with the process of organizing or conducting the trip.

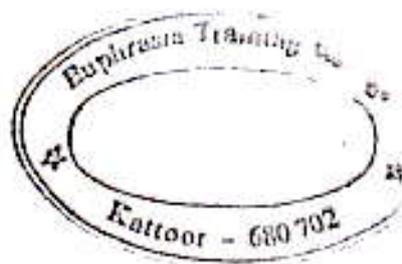

There were proper coordinations among teachers and students. Time management was not proper. Proper timing was not there. Due to this, the departure time was late.
